Notes to the Standalone Financial Statements

Significant Accounting Policies

1. Corporate Information

Jharkhand Urja Sancharan Nigam Limited (JUSNL)

Jharkhand Urja Sancharan Nigam Limited (the Company), a Limited Company, incorporated under the Companies Act, 1956, came into existence on October 23, 2013 (CIN U40108JH2013SGC001704) as a result of the unbundling of the erstwhile Jharkhand State Electricity Board (JSEB) into four companies as per "The Jharkhand State Electricity Reforms Transfer Scheme, 2013" issued vide notification no. 3 on January 6, 2014 (revised vide notification no. 2917 dated 20.11.2015). The Company is a wholly owned subsidiary company of "Jharkhand Urja Vikas Nigam Ltd (The Holding Company). The company has been notified as to the State Transmission Utility by the Government of Jharkhand vide its Notification No. 384, dated 04.02.2019.

Over the year, new GSS has been constructed and augmentation of existing GSS has been done and new Transmission line have also been constructed. Presently the Company is carrying on intra state transmission and wheeling of electricity under a license issued by the Jharkhand Electricity Regulatory Commission. The tariff of the company is regulated by the Jharkhand Electricity Regulatory Commission.

The registered office of the Company is located at Engineering Building, HEC, Dhanbad, Ranchi - 834004, in the State of Jharkhand.

The operation of JUSNL transmission network is majorly spread over 8 Circles, 13 Division and 39 Subdivisions all under 5 Zones namely: Zone I- Ranchi, Zone II- Dumka, Zone III- Jamshedpur, Zone IV- Daltonganj & Zone V- Hazaribagh.

2. Basis of preparation and presentation

The Financial Statements have been prepared under the historical cost basis except for certain cases, as explained in the Accounting Policies below.

As the operating cycle cannot be identified in normal course due to the special nature of industry, the same has been assumed to have duration of 12 months. Accordingly, all assets and liabilities have been classified as current or non-current as per the Company's operating cycle and other criteria set out in Ind AS-1 'Presentation of Financial Statements' and Schedule III to the Companies Act, 2013.

The financial statements have been prepared on an accrual basis except in the following cases, where cash basis accounting have been adopted:

- Grant received from Government
- Supervision charges received from consumers

2.1 Use of Estimates and Judgments

In the application of the Company's accounting policies, management of the Company is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical

[Handwritten signatures and initials]

experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods. Detailed information about each of these estimates and judgements is included in relevant notes together with information about the basis of calculation for each affected line item in the financial statements.

The area involving critical estimates or judgements are:

- a. Employee benefits-Defined benefit Obligations
- b. Provisions, Contingencies

Estimates and judgements are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances.

2.2 Other Significant Accounting Policies

1. Property, Plant and Equipment ("PPE")

- Property, plant and equipment are initially measured at acquisition or construction cost, including any attributable cost to acquisition of qualifying fixed assets up to the date the asset is ready for its intended use. After recognition, the Property, Plant and Equipment are measured on Cost model for each class of assets as provided in Ind AS 16.
- JUSNL has the following classes of assets:

S No.	Assets Class
1.	Land & Land Rights
2.	Buildings
3.	Civil Works
4.	Plant and Machinery
5.	Lines & Cable Network
6.	Vehicles
7.	Furniture and Fixtures
8.	Office equipment
9.	Spare Units/Service Units
10.	Assets taken over from pending final valuation
11.	Capital Spare at Generating Station
12.	Capital Spare unit (Establishment Capitalised)

- The company has elected to continue with the carrying value of all its Property, Plant & Equipment recognised as per the books and use that carrying value as deemed cost at the date of transition.
- Government Grants and Amounts received under Deposit head do not reduce the acquisition of the respective assets; Grants and Deposit Head funds are reflected as liability separately in the financial statements. Grants and Deposit head contribution are amortised against assets capitalized and depreciated and booked under income separately.

- Subsequent costs arising, for example, from additional or replacement capital expenditure are only recognized as part of the acquisition cost of the asset, or as a separate asset if it is probable that JUSNL will receive a future economic benefit and the cost can be determined reliably.
- Repair and maintenance costs that do not constitute significant replacement capital expenditure are expensed as incurred.
- Payments made towards compensation and other expenses relatable to land are treated as cost of land.
- Machinery spares are recognized as a separate asset, if it is probable that JUSNL will receive a future economic benefit and the cost can be determined reliably.

1.2 0Depreciation

- Depreciation on property, plant and equipment has been calculated at rate prescribed in JSERC vide notification no. 33 & 34, dated 27th October 2010, notification no.35 dated 1st November 2010. The depreciation is charged on assets using SLM method such that the cost of the assets are depreciated down to the residual value of 10%.
- Depreciation rate for different class of assets are provided in below-mentioned table:

S No.	Assets Class	Depreciation Rates
1.	Land & Land Rights	0%
2.	Buildings	3.02%
3.	Civil Works	3.02%
4.	Plant and Machinery	5.28%
5.	Lines & Cable Network	5.28%
6.	Vehicles	33.40%
7.	Furniture and Fixtures	6.33%
8.	Office equipment	6.33%

- Depreciation commences when the assets qualify and are transferred to Property, Plant and Equipment from capital work in progress.

1.3 Capital work-in-progress

- Projects under which assets are not ready for their intended use and other capital work-in-progress are carried at cost, comprising direct cost, related incidental expenses and attributable interest.
- Interest and inspection charges incidental to the construction of Fixed assets are capitalized with the assets
- Interests earned on unutilised funds received under loan are reduced from the interest cost charged to capital work in progress.

1.4 Government grants

- Government grants are recognized when they are received.
- Government grants whose primary condition is that JUSNL should purchase, construct or otherwise acquire capital assets are treated as deferred income and charged to the profit and loss account in proportion to depreciation over the useful life of the assets. The acquired or constructed assets from government grants are recognized at cost and depreciated over the useful life of the asset.
- Forgivable loans are recognized as a government grant when there is a reasonable assurance that JUSNL will meet the terms of forgiveness of the loan.

QW

3

JK

- Loans received at a concessional rate are recorded at fair value and the benefits of concessional rate of interest are recognized as government grant.
- Other government grants and subsidies received as revenue, are recognized as income over the periods necessary to match them with the costs for which they are intended to compensate, on a systematic basis.

1.5 Financial Instruments

- A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.
- Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments.
- Financial assets and financial liabilities have been recognised at cost. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities are added to or deducted from the cost of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities measured at cost through profit or loss are recognised immediately in the statement of profit and loss.

1.5.1 Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

1.6 Revenue

The company's is in the business of transmission of electricity and it earns its revenue primarily from transmission of electricity. Other income comprises interest from banks, delayed payment surcharges, supervision charges, etc.

The company's operations in India are regulated under the Electricity Act, 2003. Accordingly, Transmission Charges are collected from the customer as per the tariff determined and approved by the JSERC.

Transmission of Electricity

Revenue is recognized net of cash discount over time for each unit of Transmission services at the pre-determined tariff rate. Beneficiaries are billed on a periodic and regular basis. Further at each reporting date, revenue from transmission service includes an accrual for rendered service of transmission to beneficiaries but not yet billed i.e. unbilled revenue.

Delayed Payment Surcharge: Delayed payment charges on delayed payments are recognized, on grounds of prudence and when accrued.

Interest Income

Interest income is accrued on a time basis, by reference to the principal outstanding and at the applicable interest rate.

1.7 Inventories

Cost of inventories including stores, spares parts and loose tools include cost of purchase price and other costs incurred in bringing the inventories to its present location and condition.

DR

D

1.8 Cash and cash equivalents (for purposes of Cash Flow Statement)

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), flexi deposits and highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value. Other investments are recognised separately as current or non-current assets.

1.9 Cash flow statement

Cash flows are reported using the indirect method as prescribed in the relevant Ind AS, whereby profit / (loss) before tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments.

1.10 Current vs. Non-Current

JUSNL presents assets and liabilities in the balance sheet based on current / non-current classification.

An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

JUSNL classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities. The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. JUSNL has identified twelve months as its operating cycle.

1.11 Employee benefits

Employee benefits include provident fund, pension fund, superannuation fund, gratuity fund, compensated absences, long service awards and other post-employment benefits.

Post-retirement Benefits

- **Defined benefit plan** - The liability or asset recognised in the Balance Sheet in respect of defined benefit gratuity and pension plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The year's liability is estimated on the basis of actuarial valuation made and is charged to the Statement of Profit and Loss. Re-measurement gains and losses arising from experience adjustments and

changes in actuarial assumptions are recognised in the period in which they occur, directly in Other Comprehensive Income and in the Balance Sheet. The Company has a defined benefit plan for Gratuity and Pension fund which is administered through a separate trust.

- **Other Long-Term Employee Benefits** - Other Long Term Employee Benefits comprise of leave encashment. The leave benefits are recognized based on the present value of defined obligation and the year's liability is estimated on the basis of actuarial valuations. and is charged to the Statement of Profit and Loss.
- **New Pension Scheme** - Contribution towards New Pension Scheme is made and deposited as per prescribed guidelines for employees who have opted for the scheme. Such employees are excluded from the defined benefit pension plan.

Short-term employee benefits

- A liability is recognized for benefits accruing to employees in respect of wages and salaries, leaves in the period the related service is rendered at the undiscounted amount of the benefits expected to be paid in exchange for that service.
- Liabilities recognized in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid/ settled wholly within twelve months of the annual reporting period in which the employee provides the related service.

1.12 Borrowing costs

Borrowing costs include interest, amortization of ancillary costs incurred and exchange differences arising from foreign currency borrowings as applicable, to the extent they are regarded as an adjustment to the interest cost. Costs in connection with the borrowing of funds to the extent not directly related to the acquisition of qualifying assets are charged to the Statement of Profit and Loss over the tenure of the loan.

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Borrowing costs for suspended projects for reasons other than regular business, are not capitalised till the time of suspension and are charged to the Statement of Profit and Loss.

Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization

Borrowing costs incurred after the assets are ready to use are recognized in statement of profit and loss in the period in which they are incurred.

1.13 Segment Reporting

The company has an additional Segment namely State Load Despatch Centre (SLDC), Ranchi which is a part of JUSNL. SLDC is the nerve centre for Jharkhand Power System. Its principal activities include real time operation of Jharkhand Grid. It levies and collects such fee and charges from the generating companies and

Handwritten signatures and initials, including a large signature, the initials 'JX', and the number '6'.

licensees engaged in intra-state transmission of electricity as may be specified by the State Commission.

As this segment contribution to the total Revenue is less than the threshold criteria as specified under Ind AS 108- Operating Segments, disclosure and other requirements are not applicable and have been therefore excluded.

1.14 Earnings per share

The earnings per share i.e Basic and Diluted is computed by dividing the profit / (loss) after tax (including the post-tax effect of extraordinary items, if any) by the weighted average number of equity shares outstanding during the year.

1.15 Taxes on income

The tax expenses for the year comprise current and deferred tax. Tax expenses are recognized in the income statement only to the extent it relates to the items recognized in profit and loss. Taxes on items recognized in other comprehensive income and directly to equity, are also recognized in other comprehensive income and directly in equity.

Current tax is the amount of tax payable on the taxable income for the year as determined in accordance with the provisions of the Income Tax Act, 1961.

Minimum Alternate Tax

Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability, is considered as an asset if there is convincing evidence that JUSNL will pay normal income tax. Accordingly, MAT is recognized as an asset in the Balance Sheet when it is probable that future economic benefit associated with it will flow to JUSNL.

Deferred Tax

Deferred tax is recognized on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in JUSNL's financial statements. Deferred tax is measured using the tax rates and the tax laws enacted or substantially enacted as at the reporting date.

Deferred tax liabilities are recognized for all taxable temporary differences. Deferred tax assets are recognized for all deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary differences can be utilized.

Deferred tax assets in respect of carry forward unused losses and tax credit are recognized only to the extent that it is probable that future taxable profit will be available, against which the temporary differences can be utilized. If JUSNL has a history of tax losses, deferred tax assets are recognized to the extent that JUSNL has sufficient temporary differences or there is convincing other evidence that sufficient taxable profit will be available.

Deferred tax assets and liabilities are offset if such items relate to taxes on income levied by the same governing tax laws and JUSNL has a legally enforceable right for such set off. Deferred tax assets are reviewed at each Balance Sheet date for their reasonability.

The carrying amount of deferred tax assets and liabilities are reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient

Taxable, profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets are re-assessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

1.16 Provisions and contingencies

Provisions are recognized when JUSNL has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate can be made of the amount.

A contingent liability has been disclosed where the existence of an obligation has been confirmed by future events or where the amount of the obligation cannot be measured reliably. Contingent assets are not recognized, but are disclosed where an inflow of economic benefits is probable.

4. Financial risk management and Capital Management

The Company's operations of transmission of electricity are governed by the provisions of the Electricity Act 2003 and Regulations framed thereunder by the Jharkhand Electricity Regulatory Commission and accordingly the Company, being a licensee under the said statute, is subject to regulatory provisions/ guidelines and issues evolving therefrom, having a bearing on the Company's liquidity, earning, expenditure and profitability, based on efficiency parameters provided therein including timing of disposal by the authority.

The Company has been managing the operations keeping in view minimization of losses and liquidity in terms of the above regulations. In order to manage the credit risk arising from sale of electricity, multipronged approach is followed like maintenance of security deposit, precipitation of action against defaulting consumers and obtaining support of the administrative authority. Availability of capital and liquidity is also managed, in consonance with the applicable regulatory provisions.

While managing the capital, the Company ensures to take adequate precaution for providing returns to the shareholders and benefit for other stakeholders, including protecting and strengthening the balance sheet.

5. Deferred Tax

The company has not recognized deferred tax asset on a prudent ground which will arise on account of accumulated losses net of deferred tax liability arising out of timing difference in case of Depreciation on PPE between the computation as per Companies Act and Income Tax Act.

6. Disclosures regarding Solvency Ratios

As per the amended Schedule III to the Companies Act, 2013 by the MCA, a company is required to disclose certain solvency ratios. We have also made the calculations of the solvency ratios. **Details Annexed**

7. Contingent Liabilities and provisions

Provisions are recognized when JUSNL has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate can be made of the amount.

Contingent liability has been disclosed where the existence of an obligation has been confirmed by future events or where the amount of the obligation cannot be measured reliably. Contingent assets are not recognized but are disclosed where an inflow of economic benefits is probable.

The company has not made any provisions against the above-mentioned disputed cases as on 31st March 2023.
